## ***Section 1 – Introduction***

This directory provides a list of Texas Community Care’s plan providers and network pharmacies. To get detailed information about your health care coverage and prescription coverage, including how to fill your prescriptions, please see your Evidence of Coverage and formulary.

You will have to choose one of our plan providers that are listed in this directory to be your **Prietary Care Physician (PCP)**. The term “PCP” will be used throughout this directory. Generally, you must get your health care coverage from your PCP. Your PCP is a health care professional who meets state requirements and is trained to give you basic medical care.

The “plan providers” listed in this directory have agreed to provide you with your health care coverage. You may go to any of our plan providers listed in this directory; however some services may require a referral and/or authorization. If you have been going to one plan provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-plan providers.

We call the pharmacies on this list our “network pharmacies” because we have made arrangements with them to provide prescription drugs to Plan members. A network pharmacy is a pharmacy where beneficiaries obtain prescription drug benefits provided by Texas Community Care. In most cases, your prescriptions are covered under Texas Community Care only if they are filled at a network pharmacy or through our mail order pharmacy service. Once you go to one, you are not required to continue going to the same pharmacy to fill your prescription. You can go to any of our network pharmacies. We will fill prescriptions at non-network pharmacies under certain circumstances as described in your Evidence of Coverage.

### **What is the service area for Texas Community Care?**

The counties and parts of counties in our service area are listed below:

Hardin and Jefferson Counties

### **How do you find Texas Community Care providers in your area?**

We’ve taken care to ensure that no matter where you live in the service area, you’ll find a doctor’s office conveniently located near you. Your current physician may even be a part of our network, so be sure to look for his or her name inside. Physicians are listed alphabetically by [[state] [county] [city] [specialty] [last name]]. Please see the list of Plan Providers. If you have any questions about the information in this directory, please give us a call. Our representatives can guide you through the physician selection process.

If you have questions about Texas Community Care, please call our Member Service Department at 1-800-573-8597, Sunday through Saturday, 8am to 8pm. TTY users should call 1-866-573-8591. Or, visit [www.texascommunitycare.com](http://www.texascommunitycare.com).

## **What should you do if you have bills from non-plan providers that you think should be paid by Texas Community Care?**

We cover certain health care services that you get from non-plan providers. These include care for a medical emergency, urgently needed care, renal dialysis (kidney) that you get when you are outside the plan's service area, care that has been approved in advance by Arcadian Health Plan, Inc., and any services which were ordered covered through an appeals process. If a non-plan provider asks you to pay for covered services, please contact us at 1-800-573-8597, seven days a week, 8 a.m. to 8 p.m., TTY users should call 1-866-573-8591, or by mail at P.O. Box 4946, Covina, CA 91723. You should never pay any non-plan provider more than what the provider is allowed by Medicare. The provider has a right to get his/her fees, but does not have a right to get them from you. Ask the non-plan provider to bill us first. If you get a bill for the services, you can send the bill to us for payment. We will pay your non-plan provider for our share of the bill and will let you know what, if anything, you must pay

## **Getting medical care when traveling or away from the plan's service area**

If you need care when you are outside the service area, your health care coverage is limited. The only services we cover when you are outside our service area are care for a medical emergency, including post-stabilization care, urgently needed care, renal dialysis (kidney), and care that Arcadian Health Plan, Inc. or a plan provider has approved in advance.

## **What is a medical emergency?**

A situation is a "medical emergency" if **you reasonably believe that your health is in serious danger**. It means that every second counts. Some examples of "medical emergencies" are severe pain, a bad injury, a serious illness, or a medical condition that is getting worse.

## **What should you do if you have a medical emergency?**

If you have a medical emergency:

- Get medical help as quickly as possible. Call 911 for help or go directly to the nearest emergency room. **In any emergency, you never need to contact any plan provider, even your own PCP, for either permission ("authorization") or referral.**
- However, as soon as possible, you or someone else should contact your PCP about your emergency using the number located on the front of the [MEMBERSHIP CARD](#). Your PCP needs to know about your emergency because your PCP will provide follow-up care. Please try to contact your PCP about your emergency within 48 hours.

## **What is "urgently needed care"? (This is different from a medical emergency.)**

Urgently needed care refers to a non-emergency situation where you are inside the United States, you are temporarily absent from the Plan's authorized service area, you need medical attention right away for an unforeseen illness, injury, or condition, and it isn't reasonable given the situation for you to obtain medical care through the Medicare Advantage Plan's participating provider network. **Note:** Under unusual and extraordinary

---

circumstances, care may be considered urgently needed when the member is in the service area, but the provider network of the Plan is temporarily unavailable or inaccessible.

### **What is the difference between a “medical emergency” and “urgently needed care”?**

The two main differences between urgently needed care and a medical emergency are in the danger to your health and your location. A “medical emergency” occurs when you reasonably believe that your health is in serious danger, whether you are in or outside of the service area. “Urgently needed care” is when you need medical help for an unforeseen illness, injury, or condition, but your health is not in serious danger and you are generally outside of the service area.

### **Prior Authorization Rules for medical care**

If you need certain types of covered services or supplies, you must get approval in advance from your PCP (such as giving you a referral to see a specialist). It is very important to get a referral (approval in advance) from your PCP before you see a plan specialist or certain other providers (there are a few exceptions, including routine women’s health care). If you don’t have a referral (approval in advance) before you get services from a specialist, you may have to pay for these services yourself. If the specialist wants you to come back for more care, check first to be sure that the referral (approval in advance) you got from your PCP for the first visit covers more visits to the specialist. In some cases, your PCP will need to get prior authorization (prior approval) from us. Since your PCP will provide and coordinate your medical care, you should have all of your past medical records sent to your PCP’s office.

### **Section 2 – List of Plan Providers**

Physicians are listed alphabetically by county, specialty, and last name. Providers identified with an ✓ also accept Medicaid.
